Featured Projects

Here are some of my best projects showcasing full-stack development, cloud deployments, and DevOps automation.

SCS Cloud Platform

A full-stack **cloud platform** for hosting static websites and transcoding videos, built with a **microservices architecture** for scalability.

- ⚡ Reduced video processing time by **20%** using Docker + AWS ECS
- 🔒 Implemented **secure authentication** and **payment integration**
- 📧 Scalable **email notification system** with BullMQ

Tech Stack:

Event Management App (*Private Repo*)

A **mobile-first web app** for managing events with authentication, search, and seamless UI.

- 🔒 OTP + JWT-based authentication
- 🔍 Dynamic event search with optimized queries

-  Designed for **responsive mobile experience**

Tech Stack:

Hackslash Official Website

Official **Hackslash Club** website – fast, responsive, and visually engaging with animations.

-  Built with **Next.js + TailwindCSS**
-  Reduced navigation bounce rate by **15%**
-  Improved engagement by **10%** with Framer Motion animations

Tech Stack:

Two-Tier Deployment

A scalable **Node.js + MongoDB** service deployed using Kubernetes and GitOps.

-  Delivered **15+ REST API endpoints** containerized with Docker
-  Automated CI/CD with Jenkins → cut manual deployment by **90%**
-  Real-time GitOps deployments with ArgoCD

Tech Stack:

create-express-mongo-prod

A CLI tool to scaffold **production-ready Express.js apps** with modern tooling.

-  Published on NPM → **300+ downloads**
-  Built-in Docker support, ESLint, Prettier, and DB integrations
-  Accelerates backend project setup in minutes

Tech Stack:

jwt-auth-pack

A lightweight **JWT authentication middleware** for Express.js apps.

- ⚡ Sub-millisecond authentication latency
- 🔑 Fully TypeScript compatible
- 🛠 Customizable token management

Tech Stack:

Achievements & Certifications

- 💻 **800+ contributions** on GitHub and active in the open-source community.
- 🧠 Solved **250+ problems** on [LeetCode](#) with a focus on algorithms and data structures.
- 📦 Authored and published **2 NPM packages** with over **300+ downloads**.
- 🏆 Ranked in the **Top 5%** in NPTEL's *Joy of Computing with Python (IIT Madras)*.
- 🚀 Co-organized the **ByteVerse Hackathon**, scaling to over **1000+ participants**.
